Maps, profiles, and specifications of the materials and work to be let will be ready for examination at this office on and after the 20th April next.

The work to be let will embrace masonry of some of the bridges, graduation, excavation, and embankment of reservoirs, iron pipes connected with the reservoirs, 12 inch iron main, gate houses, bricks, sand, rubble, and cut stone, &c.

For the particular works and materials reference is made to the specifications and plans.

As upon a portion of the line the titles are not yet acquired by the United States, there may be some delay in commencing the work thereon; but for such unavoidable delays due allowance will be made in the time of completion.

Portions only of some of the works can be completed under the present appropriation; but all contracts for unfinished work will be subject to future appropriations by Congress. The engineer reserves the right to preserbe the amount of work to be done and rate of progress under each contract for each appropriation; and in case of the appropriation not holding out sufficiently, to decide when and what works shall be stopped until funds become available.

In case of the entire stoppage of any particular work for want of tunds, the reserved ten per cent; will be paid, if, in the judgment of tho engineer, the work has been properly executed so far as it has gone.

Payments will be made in specie checks upon the United States treasury upon the monthly estimates of the engineer, reserving 10 per cent; and it will be a condition of all contracts that the workmen shall be paid their full wages monthly, and in specie.

All bids should be scaled, and endorsed "Proposals for work or materials on the Washington Aqueduct."

The United States reserves the right to reject any or all-the bids should they not be deemed advantageous, and to make such arrangements as may be considered most conducive to the progress of the work.

ments as may be considered most conducive to the progress of the work.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation, within ten days, with good and sufficient securities, for the completion of the work undertaken; said guarantee to be accompanied by the certificate of the United States district judge, United States district attorney, navy agent, or some officer of the general government or individual known to the Engineer or Department of War, that the guaranters are able to make good their guarantee. colors

contract, and, as additional and collateral security, 15 per cent. will be withheld on the amount of each delivery until the contract is completed.

In all the deliveries of the timber there must be a due proportion of the most difficult and crocked pieces, otherwise there will be withheld such further amount, in addition to the 15 per cent, as may be judged expedient to secure the public interest until such difficult portions to delivered. The remaining \$5 per cent, or other proportion of each bill, when approved in triplicate by the commandant of the yard, will be paid by such navy agent as the contractor may name within thirty days after its presentation to him.

It will be stipulated in the contract that if default be made by the parties of the first part in delivering all or any of the timber named of the quality and at the time and place provided, then and in that case the contractor and his sureties will forfeit and pay to the United States a sum of money not exceeding twice the total amount therein agreed upon as the price to be paid in case of the actual delivery thereof, which may be recovered from time to time, according to the act of Cougress in that case provided, approved March 3, 1843.

The 50,000 cubic feet to be delivered in each yard will be in the following proportions—say \$8,000 cubic feet of keeboons, and pieces solitable for lower stems, sterm posts, sterm post knews, fore deadwood, aprous, all siding 18 and 18 inches, aprons, all siding 18 and 18 inches. These pieces to be in number in the preportions in which they enter that the contraction of a ship-of-war, conforming substantially in shape, length, and character with those hereofore received with frames of corresponding siding, the moulds of which can be seen at any of the yards named.

32,000 cubic feet of the siding of 13 and 15 inches, in about equal quantities of each, and 5,000 cubic feet of a siding of 12 inches; all these pieces being in length from 17 to 10 feet.
